

Wedding Photography Change

Now working with Captured Emotions Portraits.

I have been photographing weddings now for 30 years. It's probably what I enjoy the most and do the best. But, the demands that a wedding puts on a photographer can be quite a bit, especially for the part time business owner. Personally, a wedding takes about 40 to 50 hours for me to work on them. That includes the initial meeting to review the bride and grooms plans, and desires for their wedding day, to putting the finished photographs into their album. Add that in with a full time job and an active family with its demands on time. As a result, finding time to photograph weddings over the last couple of years has been difficult.

However, this year I began working with Captured Emotions, from Apalachin, NY. They specialize in Weddings, Bar and Bat Mitzvahs, Portraits, as well as other events. This has freed me up to concentrate on the photography while they handle the entire behind the scenes production work. Visit their web site at <http://www.capturedemotionsportraits.com/>. To view some of the recent events, go to www.pictage.com and enter the following event numbers into the search field: 452762, 477730, and 460082. On the next page, click on the link for the event name. On the next page, sign the guest book to enter the event. For both of the weddings, I was the traditional photographer working with a second photojournalistic photographer. At the Bar Mitzvah, I was the second photographer covering the photojournalistic aspect of the event. I hope that you enjoy the photographs and that I can be of service to you for your upcoming event. Feel free to contact me to further discuss your event plans.
